CALL FOR PAPERS

Following the successful earlier conferences at Bangalore (2006), Lyon (2007), London (2008), Michigan (2009), Thunder Bay (2010), Melbourne (2011), Macau (2012), Islamabad (2013), Bangkok (2014) Jeju (2015) Porto (2016), Fukuoka (2017), Berlin (2018), Ireland (2019) and the Fifteenth event is being organized at the University of Bedfordshire, the UK and Abdelmalek Essaâdi University, Tangier, Morocco in 2020. The International Conference on Digital Information Management is a multidisciplinary conference on digital information management, science, and technology. The principal aim of this conference is to bring people in academia, research laboratories and industry together, and offer a collaborative platform to address the emerging issues and solutions in digital information science and technology.

Digital Information technologies are gaining maturity and rapid momentum in adoption across disciplines. The digital community is producing new ways of using digital information technologies for integrating and making sense out of various data ranging from real/live streams and simulations to analytics data analysis, in support of mining of knowledge. The conference will feature original research and industrial papers on the theory, design, and implementation of digital information systems, as well as demonstrations, tutorials, workshops, and industrial presentations.

The Fifteenth International Conference on Digital Information Management will be held during Novmber 02-04, 2020 at Luton, UK and Tangier, Morocco.

The topics in ICDIM 2020 include but are not confined to the following areas.

- ◆ Information Technology Management
