

Second International Conference on Digital Data Processing (ICDDP 2021)

Marrakesh, Morocco

November 11-13, 2021

CALL FOR PAPERS

Second International Conference on Digital Data Processing (ICDDP 2021), Marrakesh, Morocco

Digital data technologies gain growth in the last two decades and have widespread applications. In the information world, humans and machine agents are dependent on good quality data to be capable to infer and learn from it through a process of knowledge engineering. Users leverage opportunities to implement interventions that could facilitate optimal access to reputable scientific data, thereby fostering the knowledge process by making data findable and available to information agents. Many professionals and end-users need to continuously develop their data skills to enable themselves to be smarter in the use, process, visualize and apply data.

The First International Conference on Digital Data Processing was held during November 15-16, 2019 at the University of Bedfordshire, Luton in UK. The second event will be held in Marrakesh in Morocco during November 11-13, 2021.

The topics in DDP 2021 include but are not confined to the following areas.

- ☛ Information Technology Management
- ☛ Web Mining including Web Intelligence and Web 3.0
- ☛ E-Learning, E-Commerce, E-Business and E-Government
- ☛ Edge and Fog Computing
- ☛ Data Analytics
- ☛ Software Engineering
- ☛ Deep Learning
- ☛ Natural Language Processing
- ☛ Smart Learning and Smart Cities
- ☛ Signal Processing
- ☛ Network Services
- ☛ Knowledge Graphs, Recommender System, Ontology
- ☛ Data Mining and Text Mining
- ☛ Computational Linguistics
- ☛ Distributed information systems
- ☛ Information visualization
- ☛ Multimedia and Interactive Multimedia
- ☛ Image Analysis and Image Processing
- ☛ Cloud Computing
- ☛ Computational Intelligence
- ☛ Privacy, Security and Trusted Computing
- ☛ Machine Learning
- ☛ Human-Computer Interaction
- ☛ Internet of Things

Publications

The DDP papers will be published and submitted to IEEE Xplore. It is important that all conference papers must meet IEEE's quality standards.

For this sentence, pl give a link to <https://www.computer.org/conferences/cps>

Besides, modified versions of the papers will appear in the following journals.

1. Journal on Data Semantics
2. Technologies
3. Data Technologies and Applications
4. Webology
5. Journal of Digital Information Management
6. International Journal of Computational Linguistics
7. Future Internet

Full Paper Submission	July 31, 2021
Notification of Acceptance/Rejection	September 05, 2021
Registration Due	October 05, 2021
Camera Ready Due	October 05, 2021
Workshops/Tutorials/Demos	November 12, 2021
Main conference November:	11-13, 2021

Selected papers from DDP after considerable modification and extension will be published in the below journals.

1. Journal of Advances in Information Technology
2. International Journal of Embedded and Real-Time Communication Systems (IJERTCS)
3. Journal of Digital Information Management

Paper Submission: <http://socio.org.uk/ddp/paper-submission/>
Contact: ddp@socio.org.uk

Keynote Speakers

Eleni (Helen) Karatza, Aristotle University of Thessaloniki, Greece
Maria Fasli, University of Essex, UK

Honorary Chairs

EL MOUMNI Bouchta, President of Abdelmalek Essaadi University, Tetouan, Morocco
MOUSSA Ahmed, Director of National School of Applied Sciences, Tangier, Morocco
ADDOU Mohamed, Dean of the faculty of sciences and techniques, Tangier, Morocco

Program Chairs

EL JANATI EL IDRISSE Aziz, National School of Applied Sciences, Tangier, Morocco
Ramiro Smano Robles, Instituto Superior de Engenharia do Porto Rua, Portugal
Simon Fong, University of Macau, Macau
Britel Mohamed Réda; LTI laboratory, ENSA of Tangier, UAE, Morocco

Program Co-Chairs

Ricardo Rodriguez Jorge, Autonomous University of Ciudad Juarez, Mexico
Dion Goh, Nanyang Technological University, Singapore
